VOL. II. WASHINGTON CITY, FRIDAY EVENING, MAY 26, 1843. NO. 445.

PICTORIAL HISTORY OF THE UNITED STATES.

FROM the discovery of America by the Northmen to the present time.—By JOHN FAESS, Professor of Belles Lettres of the High School of Philadelphia.—Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work. Now in press, and will be published, and to be commenced in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octavo volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers; and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot may point as an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the 1st of each month, until the whole is perfected. At the conclusion of each volume, a complete index and title page will be furnished.

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures which will be regulated by the subject, some chapters being much more susceptible of rich pictorial embellishments than others. The succeeding parts will contain the same number of pages as this.

Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please send five dollars, free of expense of postage, (Postmasters' stamps can always be obtained for remittances for periodicals,) and the whole will be sent. Clubs, by a remittance of ten dollars, will receive three copies; by a remittance of fifteen, five copies. Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to apply to E. H. BUTLER, Publisher, PHILADELPHIA, April 1, 1843. mar28—5t

WILL be published, in the City of Washington, by the 20th of April, the first number of the weekly

"GERMAN NATIONAL GAZETTE," a newspaper devoted to the political, social, and literary interests of the day. Terms: Per annum \$2.00, strictly in advance. A number of correspondents, Europe, amongst them some of the ablest German writers of the day, are engaged for the paper, which will also contain English articles.

In connection with the above is published the monthly "GERMAN IN AMERICA," of mammoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: \$1.50 per annum in advance. Both papers sent to suit address for \$3.00, in advance.

The "German in America" is a paper principally of a literary character, and intended to be an interesting medium between the literary genius of the Saxon and Anglo-Saxon races. It will exhibit some of the best literary productions, especially poetical, in each language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become familiar with German literature, this paper is strongly recommended. It contains a complete list of all books, periodicals, etc., published in Germany. Business men who deal, or wish to deal, with the American population of the German tongue, will find it greatly to their advantage to advertise in it. It has already procured a circulation which extends over the whole of Europe, Asia, Africa, South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tendency being not of a local, but of a universal character. Besides this, the rates of advertising in both papers are exceedingly low, so as to enable every body to advertise who can be profited by it.

"Publishers will oblige by early communicating copies of new publications which will be critically noticed. We intend to furnish the German public here, and on the other side of the Atlantic, with a complete review of all productions of the American press worthy of notice.

All communications must be addressed to P. A. SAGE & Co., German Publishers, Washington, D. C. Papers which will insert the above notice, entitle themselves to the thanks of the publishers, and exchange of courtesy. April 6—3t

COUGH LOZENGES.

PETERS' COUGH LOZENGES are now rapidly superseding all other preparations for the relief of Coughs, Colds, Asthma, Whooping cough, Tightness of the Chest, Bronchitis, and similar pulmonary affections.

CONSUMPTION CANNOT BE CURED! Those who say it can are impostors and quacks. Still it may be prevented or its progress stayed, by using Dr. Peters' Cough Lozenges. Begin in season. Do not neglect a slight cough until consumption has commenced its ravages. A delay of a few days often proves fatal. Peters' Cough Lozenges have performed some of the most remarkable cures on record. One trial of them is more satisfactory than a column of certificates.

THE GREAT OBJECT GAINED! Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long continued and patient investigation and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

To parents who would say, do not be without these Lozenges at any time—attend to these suggestions as you value the lives of your children.

PETERS' PILLS. TO THE WHOLE WORLD. It is admitted by all who have used them, (and who have not) that Dr. Peters' Vegetable Pills are the most unrivalled medicine ever discovered by the ingenuity of man. They are a sovereign cure for the following complaints:—Yellow and bilious fever and ague, croup, liver complaint, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, colic, female obstructed menses, heartburn, flatulence, nausea, distension of the stomach and bowels, incipient diarrhoea, flatulency, habitual constiveness, loss of appetite, bloated or sallow complexion, and all cases of torpor of the bowels, where a cathartic or an aperient is needed.

They are a exceedingly mild in their operation, produce no gastric nausea, griping, nor debility.

Dr. J. G. Smith, of Woodstock, Va., says—"They are a better Pill than I can make." He recommends their use.

The agent at Staunburg, Va., says he supplies families for 30 miles around with Peters' Pills, and they perform such remarkable cures that they are preferred to every other medicine.

Mrs. E. Ward, of New York, was troubled with dyspepsia and liver complaint for thirteen years
